

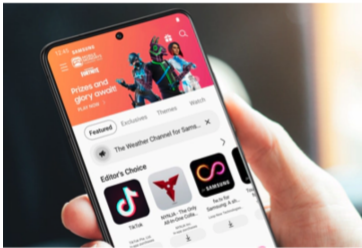

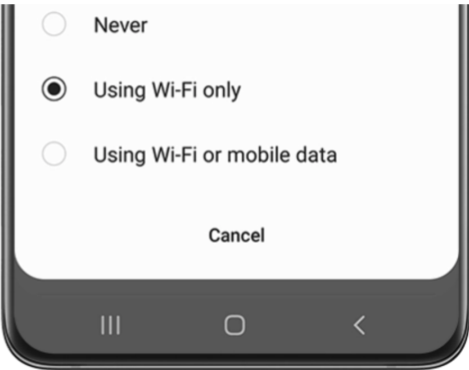

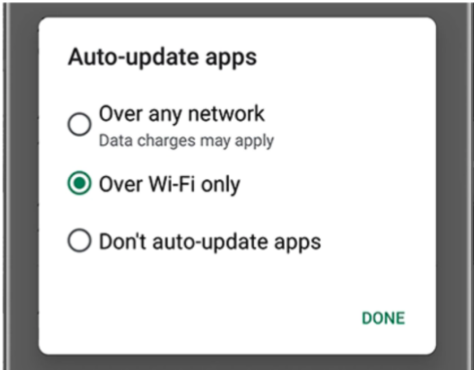

Exhibit 8

U.S. Patent No. 8,554,196 (“’196 Patent”)

Accused Instrumentalities: cellular handsets that support wifi-only automatic updates, including without limitation the Apple iPhone 12, iPhone 12 mini, iPhone 12 Pro, iPhone 12 Pro Max, iPhone 13, iPhone 13 mini, iPhone 13 Pro, iPhone 13 Pro Max, iPhone 14, iPhone 14 Plus, iPhone 14 Pro, and iPhone 14 Pro Max and Samsung Galaxy S20 FE, Galaxy S21, Galaxy S21 FE, Galaxy S21 Ultra, Galaxy S22, Galaxy S22+, Galaxy S22 Ultra, Galaxy Z Flip3, Galaxy Z Flip4, Galaxy Z Fold3, Galaxy Z Fold4, Galaxy A52, Galaxy A53, and all versions and variations thereof since the issuance of the asserted patent.

Claim 23

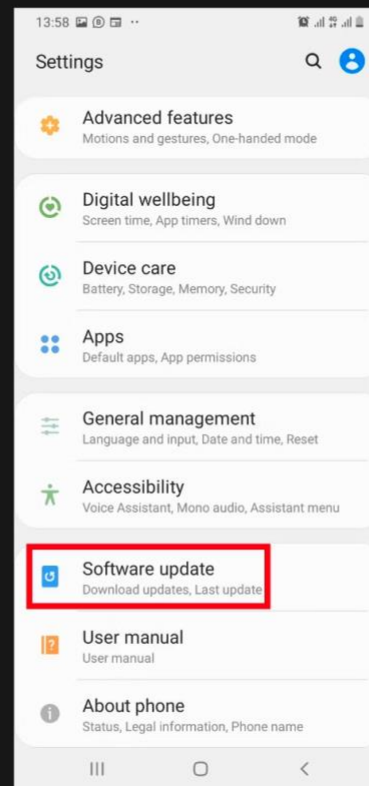

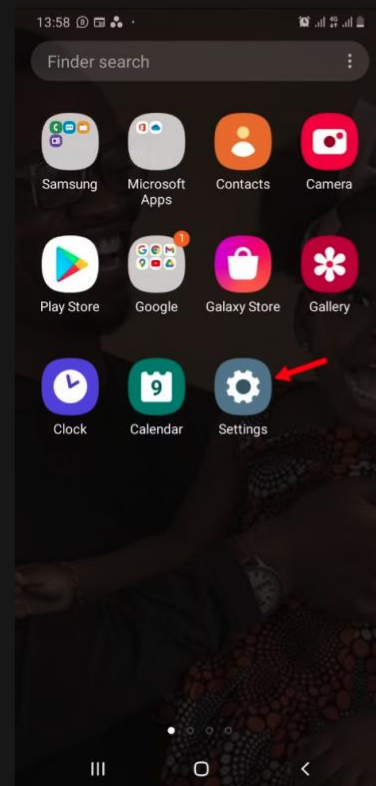

Claim 23	Accused Products
<p>[23pre]. A method for a device to receive data updates comprising:</p>	<p>Whether or not the preamble is limiting, each Accused Product practices the claimed method.</p> <p>For example, the Accused Product practices the claimed method on a device receiving data updates.</p> <p><i>See, e.g.:</i></p> <p>Update Play Store and Galaxy Store apps on the phone</p>  <p>Sometimes app developers will release updates to fix bugs, make improvements, or just give a general tune-up. Keeping your apps updated is the best way to make sure you always have the latest features and the best performance. You don't have to worry about keeping track of updates for every single app on your phone, however. You can turn on auto-updates and let it do it for you.</p> <p>https://www.samsung.com/us/support/answer/ANS00080581/.</p>

Claim 23	Accused Products
	<p>Turn on automatic updates in the Galaxy Store</p> <p>When apps update automatically, you won't have to give updating them a second thought. Follow these steps to turn on Auto Updates in the Galaxy Store:</p> <p>Open Galaxy Store, and then tap the Menu icon (the three horizontal lines), in the bottom right corner. Tap the Settings icon (it looks like a gear), and then tap Auto update apps. Select your desired setting.</p>  <p>https://www.samsung.com/us/support/answer/ANS00080581/</p> <p>Turn On Auto Update in Play Store</p> <p>Let the Play Store take care of updates automatically so you don't have to worry about it.</p> <ol style="list-style-type: none"> 1. Open the Play Store, and then tap your profile picture. 2. Tap Settings, and then tap Network preferences. 3. Tap Auto-update apps, and then select your desired setting.  <p>https://www.samsung.com/us/support/answer/ANS00080581/</p>

You can also ensure your phone gets automatic software updates by following these simple steps.

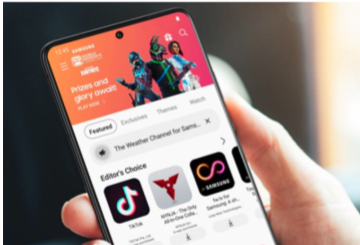

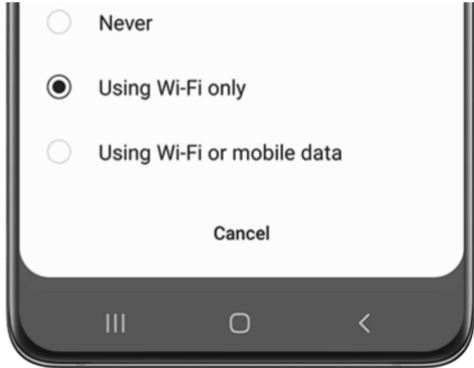

1. Go to **Settings**
2. Scroll down and tap **Software update**
3. Make sure the **Auto download over Wi-Fi** option is turned on

Keeping your apps updated is the best way to make sure you always have the latest features and the best performance. You don't have to worry about keeping track of updates for every single app on your phone, however. You can turn on auto-updates and let it do it for you.</p> <p>https://www.samsung.com/us/support/answer/ANS00080581/.</p>

	<p>Turn on automatic updates in the Galaxy Store</p> <p>When apps update automatically, you won't have to give updating them a second thought. Follow these steps to turn on Auto Updates in the Galaxy Store:</p> <p>Open Galaxy Store, and then tap the Menu icon (the three horizontal lines), in the bottom right corner. Tap the Settings icon (it looks like a gear), and then tap Auto update apps. Select your desired setting.</p>  <p>https://www.samsung.com/us/support/answer/ANS00080581/</p> <p>Turn On Auto Update in Play Store</p> <p>Let the Play Store take care of updates automatically so you don't have to worry about it.</p> <ol style="list-style-type: none"> 1. Open the Play Store, and then tap your profile picture. 2. Tap Settings, and then tap Network preferences. 3. Tap Auto-update apps, and then select your desired setting.  <p>https://www.samsung.com/us/support/answer/ANS00080581/</p>

You can also ensure your phone gets automatic software updates by following these simple steps.

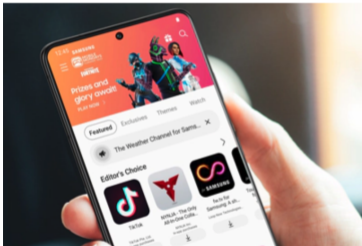

1. Go to **Settings**
2. Scroll down and tap **Software update**
3. Make sure the **Auto download over Wi-Fi** option is turned on
